CAUSE

Timothy Roullier violated conditions of his supervised release by consuming methamphetamine on or about April 22, 2012, contrary to condition #7 of the conditions of supervised release.

On April 25, 2012, Mr. Roullier was summoned to the U.S. Probation Office in Spokane, Washington, for urinalysis testing. consumption on the above-referenced date. Subsequently, the sample was forwarded to Knoll Laboratories for further analysis. Timothy Roullier advised that he consumed the controlled substance with his daughter's husband.

The offender explained that he has had significant relationship problems with his wife and other family members for some time.

U.S. Probation Officer Action:

As an intermediate sanction, Timothy Roullier was directed to abstain from the use of controlled substances while under supervision. He agreed to participate in phase urinalysis testing and a chemical dependency evaluation. The undersigned referred the offender for the Substance Treatment and Education Program (STEP) to address any potential issues surrounding the use of illicit drugs.

On April 26, 2012, the offender signed a Waiver of Hearing agreeing to participate in a substance abuse evaluation and submit to phase urinalysis testing, as directed by the supervising probation officer. It is respectfully recommended that the Court adopt the Waiver of Hearing to modify the conditions as outlined above.

It is hoped that the intermediate sanction imposed meets with the expectations of the Court. Please advise should Your Honor require a different course of action or a court appearance by the offender.

I declare under penalty of perjury that the foregoing is true and correct.
